Approved By: Camille Odom, Managing Director

=====

1. PURPOSE

This policy establishes controls for managing physical access devices (keys, key fobs, access cards, lock combinations) used to control access to MST facilities and CUI areas.

2. PHYSICAL ACCESS DEVICES INVENTORY

MST uses the following physical access devices:

- Building key fobs (5 total): Camille Odom, Terrell Banks, Angela Price, Jerome Williams, and one spare (locked safe)
- Server room keypad: Code known to Terrell Banks and Camille Odom only
- Filing cabinet keys (paper CUI): Terrell Banks and Camille Odom only

3. ISSUANCE AND TRACKING

- All physical access devices are logged in the Physical Access Device Register (SharePoint: IT/Physical-Access-Register)
- New device issuance requires Camille Odom approval
- Lost devices are reported immediately and the affected lock or code is changed within 24 hours

4. TERMINATION PROCEDURE

When an employee leaves MST:

- Key fob is collected on the employee's last day
- If fob cannot be collected: immediately deactivated
- All codes (server room, cabinet) are changed within 24 hours of termination

5. AUDIT

Terrell Banks audits the physical access device inventory quarterly and certifies all devices are accounted for.
