MONEY STRAIGHT TALK LLC
AUDIT LOGGING AND ACCOUNTABILITY POLICY

=====

Document ID: POL-AU-001
Version: 2.0
Effective Date: April 1, 2026
Review Date: April 1, 2027
Owner: Systems Administrator, Terrell Banks
Approved By: Managing Director, Camille Odom

=====

1. PURPOSE

Money Straight Talk LLC provides financial literacy consulting and manages CUI under Department of Defense financial education contracts. This policy ensures that all system activity is logged, retained, and available for review to detect and investigate unauthorized or suspicious activity.

2. SCOPE

Applies to all company servers, workstations, cloud platforms (Microsoft 365, Azure), and the client portal used to deliver financial education content under federal contracts.

3. EVENTS TO BE LOGGED

The following events are captured on all covered systems:

- Successful and failed login attempts
- Account creation, modification, and deletion
- Password changes and resets
- Privilege escalation events
- File access on CUI-designated shares
- System startup and shutdown
- Firewall allow/deny events
- VPN connection events (connect/disconnect)
- Software installation and removal
- Configuration changes to security settings

4. LOG RETENTION

- Security event logs retained for a minimum of 90 days online
- Archived logs retained for 1 year in Azure Blob Storage (cold)
- Logs are stored in a write-once, read-many configuration
- Log storage access restricted to Terrell Banks and Camille Odom

5. LOG REVIEW

- Automated alerts configured for high-priority events (see Section 6)
- Weekly manual log review conducted by Terrell Banks
- Monthly summary report delivered to Camille Odom
- Anomalies reported to management within 4 hours of detection

6. AUTOMATED ALERTING

The following events trigger immediate email/SMS alerts:

- 5+ failed login attempts on any account within 10 minutes
- Any login outside business hours (8pm-6am EST)
- Any login from foreign IP addresses
- Audit log service stopped or paused
- CUI file share accessed by non-authorized account

7. LOG INTEGRITY

- Logs are forwarded in real time to Azure Sentinel SIEM

- Local log tampering triggers an automatic alert
- Log administrator access is limited to prevent self-audit

8. RESPONSIBILITIES

- Terrell Banks: Configure logging, review weekly, respond to alerts
- Camille Odom: Receive monthly reports, approve log access changes
- All staff: Report suspicious activity immediately
