MONEY STRAIGHT TALK LLC
USER-INSTALLED SOFTWARE CONTROL POLICY

=====

Document ID: POL-CM-009
Version: 1.0
Effective Date: January 28, 2026
Review Date: January 28, 2027
Owner: Terrell Banks, Systems Administrator
Approved By: Camille Odom, Managing Director

=====

1. PURPOSE

This policy controls and monitors software installed by users to prevent unauthorized, malicious, or unlicensed software on MST information systems.

2. USER INSTALLATION RIGHTS

Standard users DO NOT have local administrator rights. Standard users cannot install software without IT assistance. All software installations must be performed by Terrell Banks or via Intune-managed application deployment.

3. REQUEST PROCESS

Staff who need software installed must:

- a) Submit a request to Terrell Banks (email or Teams)
- b) Provide business justification
- c) Terrell Banks reviews for security, licensing, and need
- d) Camille Odom approves purchases if licensing cost >
- e) Terrell Banks deploys via Intune Company Portal

4. MONITORING

Monthly software inventory audit using Intune:

- All installed applications reported per device
- Any application not on the approved list is flagged
- Flagged items are reviewed and removed if unauthorized

5. PROHIBITED SOFTWARE

- Peer-to-peer file sharing software
- Cryptocurrency mining software
- Remote access tools not approved by IT
- Software from unknown or untrusted publishers
- Cracked, pirated, or license-key-generated software
