INCIDENT RESPONSE TABLETOP EXERCISE – AFTER ACTION REPORT
Evidence for CMMC Control 3.6.1
=====

Exercise ID: EX-2026-01
Exercise Date: March 12, 2026
Duration: 2.5 hours (9:00 AM – 11:30 AM EST)
Facilitator: Terrell Banks
Participants: Camille Odom, Terrell Banks, Angela Price
Location: MST Conference Room / Teams (hybrid)
=====

EXERCISE SCENARIO

Scenario Title: "Phishing to Ransomware"

Description: An employee (Angela Price, simulated) receives a phishing email appearing to be from a DoD contracting officer. She clicks a malicious link and unknowingly installs ransomware. The next morning, three workstations are encrypted and a ransom note appears on screen. CUI files on the shared drive may be at risk.

EXERCISE OBJECTIVES

-
1. Test activation of the Incident Response Team (IRT)
 2. Test containment procedures for ransomware
 3. Test CUI breach notification procedures
 4. Identify gaps in current IR capability

EXERCISE TIMELINE (Simulated)

T+0:00 Alert from Azure Sentinel – unusual encryption activity
T+0:15 Terrell Banks reviews alert, confirms ransomware
T+0:20 Camille Odom notified via phone (IRT activated)
T+0:35 Affected workstations isolated from network
T+0:50 CUI exposure assessed – 2 files potentially exfiltrated
T+1:10 DoD contracting officer notification drafted
T+1:30 US-CERT reporting process reviewed (72-hour clock starts)
T+2:00 Recovery from Azure Backup initiated (simulation)
T+2:30 Exercise wrap-up and debrief

FINDINGS AND OBSERVATIONS

STRENGTH: IRT was activated within 20 minutes – meets objective
STRENGTH: Network isolation procedure worked correctly
STRENGTH: Backup restoration process well understood

GAP IDENTIFIED: After-hours contact list was outdated – Camille's personal cell was wrong. ACTION: Update contact list by 3/19.
GAP IDENTIFIED: US-CERT reporting URL was not bookmarked – staff needed to search for it. ACTION: Add to IR bookmark folder.
GAP IDENTIFIED: No designated out-of-band communication method if email is compromised. ACTION: Establish Signal group for IRT.

ACTION ITEMS

-
1. Update IRT contact list Owner: Terrell Due: 03/19/2026 CLOSED
 2. Bookmark US-CERT reporting portal Owner: Terrell Due: 03/19/2026 CLOSED
 3. Create Signal group for IRT Owner: Terrell Due: 03/26/2026 CLOSED

OVERALL ASSESSMENT

The exercise demonstrated a functioning incident response capability. Core procedures are understood by all participants. Three gaps were identified and all have been remediated.

Next Tabletop Exercise Scheduled: March 2027
