INCIDENT LOG

INC-2026-001

Date Discovered: January 22, 2026 at 2:15 PM
Date of Occurrence: January 22, 2026 at 10:30 AM
Description: Phishing email received by Angela Price.
User clicked link (sandbox detonation page).
Systems Affected: MST-WS-003 (Angela's workstation)
CUI Involved: NO
Immediate Action: Blocked sender domain. Scanned WS-003
(no malware found - link was a honeypot).
Root Cause: User clicked without verifying sender.
Resolution: Additional phishing training assigned to A. Price.
Status: CLOSED 01/23/2026

INC-2026-002

Date Discovered: March 14, 2026 at 9:00 AM
Date of Occurrence: March 14, 2026 (ongoing)
Description: MST-WS-004 (Jerome Williams) flagged by
Defender - attempted connection to known C2 IP.
Systems Affected: MST-WS-004
CUI Involved: POSSIBLE - Williams has CUI access
Immediate Action: Isolated WS-004 from network. Ran full scan.
Root Cause: Malicious ad JavaScript on news website
attempted to beacon to C2 (blocked by Defender).
No actual compromise - Defender blocked the call.
Resolution: Browser ad-blocking extension deployed. WS-004
reconnected after clean scan.
CUI Reporting: CUI not exfiltrated. Contracting Officer notified
within 72 hours as precaution (email on file).
Status: CLOSED 03/15/2026

INC-2026-003

Date Discovered: June 8, 2026 at 11:30 AM
Date of Occurrence: June 8, 2026
Description: Jerome Williams reported laptop MST-LT-002
missing after travel.
Systems Affected: MST-LT-002 (contains CUI files)
CUI Involved: YES - Financial contract data on encrypted disk
Immediate Action: BitLocker verified ACTIVE on MST-LT-002.
Intune remote wipe initiated as precaution.
Root Cause: Laptop left in hotel room during checkout.
Hotel recovered and shipped back (received 06/10).
CUI Reporting: DIBNet report filed 06/09/2026 (within 72 hrs).
Laptop recovered with BitLocker intact. No breach.
Status: CLOSED 06/11/2026
